

TEXAS PARKS AND WILDLIFE DEPARTMENT

EXECUTIVE DIRECTOR ORDER NO. 022-001

Under the provisions of Parks and Wildlife Code, §12.027, if the Texas Parks and Wildlife Commission (the Commission) or the Executive Director of the Texas Parks and Wildlife Department (Executive Director) finds that there is an immediate danger to a species authorized to be regulated by the Department, the Commission or the Executive Director may adopt emergency rules as provided by Government Code, §2001.034.

White-tailed deer and mule deer are game animals subject to regulation by the Commission under the provisions of various chapters of the Parks and Wildlife Code, including Chapters 43 (Subchapters E, L, R, and R-1), 61, 62, and 63. Chronic Wasting Disease (CWD) is a fatal neurodegenerative disorder that affects some cervid species, including white-tailed deer and mule deer. The Executive Director finds that extenuated testing times for tissue samples submitted by deer breeding facilities regulated under Parks and Wildlife Code, Chapter 43, Subchapter L and regulations adopted pursuant to that subchapter (31 TAC Chapter 65, Subchapters B and T) create an immediate danger to a public resource of Texas, namely, white-tailed deer and mule deer, and that the adoption of this rule on an emergency basis with fewer than 30 days' notice is necessary to address this immediate danger.

The Executive Director hereby ORDERS the adoption, on an emergency basis, of new 31 TAC §65.101 to address testing requirements for deer breeding facilities. This order is effective immediately upon filing, and authorizes publication of a Notice of Emergency Adoption in the *Texas Register*.

This order is issued pursuant to §12.027 of the Texas Parks and Wildlife Code and is effective immediately.

Signed this the 22nd day of April, 2022.

A handwritten signature in black ink, appearing to read "Carter Smith", with a stylized flourish at the end.
